### EPI Spec.File CD-ROM ver. 4.0

- **No installation required.**
- **No files are saved on your computer.**
- **Browse this CD like surfing the web.**

EPI's Spec.File CD contains a wealth of information on PVC geomembrane liners. Video's, Specifications, Case Studies, Installation Instructions, Quality Control, Technical Information, and much more. All of the information is presented using HTML format for use in your web browser.

Insert the CD into your computer's CDROM drive. An automenu dialog box will automatically appear in the upper right corner of your screen. The automenu has 6 selections:

1. License - Be sure to review the license agreement
2. Open Spec File CD - Click this bar to start EPI Spec File. This will open your web browser and you can navigate the CD in the same way as our Internet home page.
3. Geomembrane.com - Click this bar to go to

[www.geomembrane.com](http://www.geomembrane.com) online for updated information.

4. EPI Welcome Slide Show - Click this bar to view a 12 minute PowerPoint presentation about EPI and PVC with sound and video.
5. Help - Click this bar to learn more about this CD.
6. The VERTICAL Blue Bar at the left side of the automenu is the Exit button to close the automenu dialog box.

If the auto run feature of windows is disabled on your computer, click Start, click RUN, type "D:\GO" where "D" is the drive letter of your CDROM, and click OK. This will start the automenu dialog box.

Mac Users: Open the EPI CD 4, open the folder EPI, click on INDEX.HTM. This will open the file in your browser.
